

DINO TARABAR

Prof. Dr. Dino Tarabar is a specialist in internal medicine with a subspecialization in gastroenterology and oncology in Belgrade, with many years of professional experience. He has gained his expertise through work in both private and public healthcare institutions. He focuses particularly on the treatment of patients with colorectal cancer, Crohn's disease, and ulcerative colitis. For a first consultation with Prof. Dr. Tarabar, patients are required to complete and bring the following tests: complete blood count (CBC), ESR, CRP, albumin, iron, ferritin, vitamin D, stool tests for *Helicobacter pylori*, and calprotectin. At Prof. Dr. Dino Tarabar's clinic, patients can schedule the following services: specialist consultations, colonoscopy, and gastroscopy. He is the first in the world to develop a new approach to treating inflammatory bowel diseases, with his study starting in January 2017. In addition to his clinical work, Prof. Dr. Tarabar is actively involved in teaching. He serves as a professor in the Department of Internal Medicine at the Military Medical Academy in Belgrade and regularly participates in important national and international congresses.
